EXPERIENCE:

At my previous company, **Amrut Software Pvt Ltd**, I worked as an **HTML Developer and Web Designer** from **June 7th, 2022**, to **February 29th, 2024**. Our client at Amrut Software was TataCliq Luxury, and my responsibilities included designing and developing web landing pages for the client. I worked on the product pages for the brand on TataCliq Luxury's e-commerce website.

We received materials from the client to create A-plus content pages, and my task involved designing and developing these A-plus content landing web pages. Additionally, I was occasionally required to undertake proof-of-concept (POC) work, which involved designing sample A-plus content landing pages for new clients. **The links to some of these sample pages are provided below:**

Frontend Web Developer and Design Project:

Name	:	HTML Developer and Webdesigner
Software Used	:	Sublime, Photoshop.
Technologies Used	:	HTML5, CSS(MediQueries), Bootstrap, JavaScript and jQuery.
Description	:	Designing landing web page for TataCliq luxury app and make responsive for desktop as well as mobile.
Live Sample Links	:	Webpage placed under - From The Brand title https://luxury.tatacliq.com/rado-r32128162-captain-cook-hrithik-roshan-special-edition-analog-watch-for-men/p-mp000000014324647

In 2021 and 2022, I successfully managed two freelance projects. One involved redesigning a website for a physiotherapy clinic, accessible at

Link : <https://replayphysio.com/>

For this project, I utilized HTML, CSS, Bootstrap3, JavaScript, and jQuery to enhance its static design. Additionally, I designed and developed a static website for an interior designer from scratch, accessible at Link: <https://savvyenterprises.co.in/>.

Employing the PHP CodeIgniter framework for backend development and HTML, CSS, JavaScript, and Bootstrap4 for frontend, I ensured its seamless functionality and appealing interface.
